A Bold Step.

To overcome the well-grounded and asonable objections of the more intelreasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely calebrated hedicines. Thus he has taken his numerous patrons and patients into elebrated accioches. Inus ne has taken is numerous entrons and patients into is full confidence. Thus too he has recover his medicines from among secret costrayer of doubtful merits, and made hum alemedics of Known Composition. By this bold step Dr. Pierce has shown that his formulas are of such excellence and he is not atraid to subject them to be in lost security.
